PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Artificial Intelligence, Machine Learning, Generative AI, Retrieval-Augmented Generation (RAG), and Full-Stack Development. Experienced in developing enterprise AI solutions using LangChain, Ollama, AnythingLLM, and Vector Databases. Proficient in Python, Java, React.js, Node.js, and cloud technologies. Passionate about building scalable AI-powered applications and solving real-world business problems.

EDUCATION

B. Tech – Computer Science & Engineering (2023–2027), CGPA: 8.35/10

Vellore Institute of Technology (VIT), Vellore

INTERNSHIP EXPERIENCE

Virtusa Consulting Services Salesforce Intern (19th May – 21st June 2025)

- Analyzed Salesforce-based Business Process Automation (BPA) implementation for **TalkTalk (British Telecom)**, understanding CRM workflows and service management. Gained practical knowledge of Salesforce CRM, Lightning Platform and automation tools through enterprise training.

Hindustan Aeronautics Limited (HAL) Software Intern (15th May – 30th June 2026)

- Developed HALGPT using AnythingLLM, LangChain, Ollama and LanceDB
- Implemented semantic search and vector retrieval pipelines.
- Built secure RAG-based knowledge retrieval workflows.

TECHNICAL SKILLS

- **Programming:** Python, Java, C, C++, JavaScript
- **AI/ML:** Machine Learning, Deep Learning, NLP, Generative AI, LLMs, RAG, LangChain, Prompt Engineering, Semantic Search, Vector Databases, Scikit-Learn, Ollama, AnythingLLM
- **Full-Stack Development:** HTML, CSS, React.js, Node.js, Express.js, REST APIs
- **Databases:** MySQL, LanceDB
- **Cloud & Tools:** AWS, Docker, Git, GitHub, Salesforce

CERTIFICATIONS

- Introduction to Generative AI and LLMs (Udemy)
- Fundamentals of AI & ML (AICTE)
- High Performance Coding Course in DSA using Java.

ACHIEVEMENTS

- Received an Appreciation Letter from the Chief Manager (IT), HAL, for contributions to HALGPT and improving operational efficiency.

POSITIONS OF RESPONSIBILITY

- SAHITI TLA, VIT Vellore
Cultural Secretary | Mar 2026 – Present , Organized cultural events and student engagement activities.

PROJECTS

- **HALGPT – Offline Enterprise AI Assistant** GitHub: github.com/username/HALGPT
 - Developed HALGPT, an Offline Enterprise AI Assistant using AnythingLLM, RAG, LangChain, Ollama, and LanceDB.
 - Implemented document ingestion, chunking, vector embedding, and semantic search pipelines.
 - Improved knowledge retrieval efficiency by 90% and reduced manual search by 85% in an air-gapped environment.
- **Employee Pay Scale Estimator:**
 - Developed a machine learning model using Gradient Boosting and feature engineering techniques to predict employee income levels. Achieved 85.85% prediction accuracy through data preprocessing, feature selection, and model optimization.
 - Technologies: Python, Pandas, NumPy, Scikit-Learn, Gradient Boosting.
